Education

UNIVERSITY OF WISCONSIN-MADISON | BACHELOR OF SCIENCE IN COMPUTER SCIENCE (FALL 2020)

Technical Skills

Frontend: React, React Native, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Material-UI, Node

Backend & Data: Python, Java, SQL, Snowflake, Teradata

Cloud & AI: AWS (Bedrock, AgentCore, Quick Suite), Microsoft Azure

DevOps & Tools: GitHub, GitHub Actions, Docker, Power BI, Jira

Design & Prototyping: Figma, InVision, Adobe Photoshop

Experience

3M | JANUARY 2021 – PRESENT (HYBRID)

AI Engineer (Lead Frontend) | Sep 2025 – Present

- Led the AI Experiences team, owning frontend architecture and delivery across multiple applications, including Navigator, an enterprise AI chat platform with RAG and multimodal capabilities - achieving **23,806 unique users** and **4,379,859 queries** in 2026.
- Managed technical direction, task delegation, and code reviews for a team of four frontend engineers and designers; facilitated **Agile Scrum** ceremonies including Daily Standups, Sprint Planning, Sprint Reviews/Demos, and Retrospectives, while serving as the primary liaison between frontend, backend/ML, and business stakeholders.
- Architected a scalable **React + TypeScript** frontend using **Redux** Toolkit with real-time AI response streaming over HTTP (REST) and WebSockets.
- Implemented and designed reusable UI components, dynamic theming, file uploads, voice and translation modes, and reasoning visualizations.
- Integrated frontend with **AWS** and **Azure**-hosted AI services.

Senior Software Engineer | May 2024 – Sep 2025

- Full-stack engineer delivering web and mobile applications for executive KPI tracking.
- Led React Native mobile app development and frontend UX optimization.
- Built backend APIs and data pipelines using Python, Java, SQL, Azure, and AWS.
- Contributed to **CI/CD** pipelines using Docker and GitHub Actions.

Software Engineer | Jan 2021– May 2024

- Developed React applications supporting supply chain analytics and reporting.
- Built dashboards and data visualizations using Power BI and SQL.
- Delivered business intelligence dashboards using Snowflake, Teradata, SQL, and Power BI.

Leadership & Organizational Impact

- Led IT NERD board as Chair (17 members, 3 committees) supporting onboarding and career development supporting 300+ IT community members.
- Organized 12+ internal events annually and managed monthly newsletters and leadership meetings.
- Designed and ran Reverse Mentorship Program pairing 40 employees including SVPs and Directors.

PERSONAL PROJECTS & PORTFOLIO

- Designed and built a responsive personal website using **React, Next.js, and React Native**, showcasing projects and technical writing.
- Created custom visuals and UI assets using **Adobe Photoshop**, focusing on layout, branding, and visual consistency.
- Built core computer science and machine learning concepts from scratch (e.g., **decision trees, linked lists**) to develop a deep understanding of underlying algorithms and data structures.
